

## About Dryrainge - The Ultimate Range Cover.

The Dryrainge™ is an affordable, attractive, portable, and sturdy all-weather driving range cover offering golfers proven protection from the elements while allowing them to hit balls off a natural grass surface. Whether it's protection from the howling wind, pounding rain, or the sun's searing harmful UV rays, the Dryrainge™ provides comfort to your clientele allowing you to get more from your range.

When unpredictable inclement weather strikes, the Dryrainge™ means you will no longer have to cancel lessons, clinics, demos or schools, and your loyal customers will no longer have to stay at home when they would rather be on the links practicing their swing! This increased traffic to your facility provides the opportunity for pro shop sales, lessons and rounds to be booked - capturing range revenue that would have been otherwise lost.

Strong and durable, the Dryrainge™ frame is constructed of 2 3/8" structural, round, hot dipped galvanized tubing with a high-quality finish, which resists corrosion, abrasion and fading from sunlight. The cover is made from 12.5-ounce woven polyethylene, providing a heavy-duty, yet aesthetically pleasing, and maintenance free shelter. Furthermore, its modular construction and unique anchoring system or optional wheels provide for ease of assembly and portability. It can be easily assembled in less than two hours and can be effortlessly relocated allowing for renewal of precious natural grass surfaces.

### Models:

3 man - "Members Edition" - 33' wide, 12' deep, 11'10" high  
 2 man - "Teacher Edition" - 25' wide, 12' deep, 11' high

Dyrainge™ comes equipped with a 2 x 10 material overlay that can be utilized as advertising for sponsorships or course logos.

The cover, available in a wide variety of colours, has a limited three-year warranty and a one-year manufacturers warranty. The product is tested to withstand wind speeds of up to 35 miles per hour with ground anchoring or up to 50 mph with our concrete anchoring system.
